Project Title: Matcha Website

I'd like to build this website as one main page with layers that expand to reveal each section. It would be like an interactive infographic about all things matcha, like its history, how it's produced, etc.

- Landing page/introduction
 - Basic facts
 - Vocabulary
- History/tradition
- Popularization (and the shortage)
- Characteristics
 - Flavor profiles and their definitions
- Production
- Preparation/Use
 - Japanese tea ceremony
 - Modern use
- Sources
